MESSAGE FROM THE MAYOR:

It is that time of year again to think about water conservation. The amount of water available to the Town is limited by our water rights and the effects of the ongoing drought and potential freezing of Madd Creek in the winter. Listed below are some tips to help us all limit our water consumption. The Regular Board Meeting on November 16 will include a water conservation meeting; Michael Murphy from Ramey Environmental will be present to give us tips for water conservation and answer questions.

TIPS FOR WATER CONSERVATION

- Check your toilet for leaks.
- Stop using your toilet as an ashtray or wastebasket
- Put a plastic bottle in your toilet tank
- Take shorter showers
- Install water-saving shower heads or flow restrictors
- Take baths
- Turn off the water while brushing your teeth
- Turn off the water while shaving
- Check faucets and pipes for leaks
- Use your automatic dishwasher for full loads only
- Use your automatic washing machine for full loads only
- Don't let the faucet run while you clean vegetables
- Keep a bottle of drinking water in the refrigerator
- If you wash dishes by hand, don't leave the water running for rinsing

TIPS FOR PREVENTING PIPES FROM FREEZING

- If you feel it is necessary to drip your faucet to keep your water pipes from freezing, make sure it is only a drip
- Install heat tracing on pipes under your residence with a light or indicator to show it is working
- Wrap all plumbing under your residence with insulation and make sure crawl spaces are not open to the elements
